EDUCATION

University of Engineering And Technology, Peshawar

Bachelor of Science in Computer Systems Engineering

Pakistan

Expected Graduation: 2027

EXPERIENCE

Full Stack Developer Intern – CodeAlpha

Full Stack Development Internship

Remote

June 2026 – Present

- Worked on full-stack web development projects using modern frontend and backend technologies
- Developed responsive and reusable UI components using React.js
- Collaborated on backend development tasks and API integration workflows
- Improved practical software engineering and problem-solving skills through project implementation

Full Stack Web Developer (Self Projects)

Independent Development

2025 – Present

- Developed multiple full-stack and frontend applications using React.js, JavaScript, and modern UI libraries
- Built AI-powered dashboard systems with interactive analytics and responsive design
- Implemented routing, state management, and reusable component architecture
- Worked with REST APIs, asynchronous data handling, and dynamic UI rendering
- Focused on performance optimization and scalable frontend structure

PROJECTS

3D Portfolio Website

React.js, Three.js, GSAP, Redux Toolkit, Context API, Lenis

- Developed an interactive 3D portfolio website with immersive UI and smooth animations
- Integrated Three.js and React Three Fiber for real-time 3D rendering and visual effects
- Used GSAP and Lenis to create advanced animations and smooth scrolling interactions
- Implemented global state management using Redux Toolkit and Context API
- Designed responsive UI with optimized frontend performance and reusable components

Real Estate Listing Platform

React.js, PHP, Laravel, SQL

- Built a full-stack real estate platform for property listing and management
- Developed responsive frontend interfaces using React.js and modern frontend tools
- Implemented backend APIs and business logic using PHP and Laravel
- Designed and managed relational databases using SQL and MySQL
- Created dynamic property listing, filtering, authentication, and CRUD functionality

AI Frontend Review Dashboard

React.js, Redux Toolkit, Tailwind CSS

- Built an AI-powered frontend analysis dashboard with analytics and reporting UI
- Implemented Redux Toolkit for efficient state management
- Designed reusable and responsive UI components using Tailwind CSS

E-Commerce Web Application

React.js, Redux Toolkit, JavaScript

- Developed a responsive e-commerce frontend with cart and product listing functionality
- Implemented global state management using Redux Toolkit
- Built modular UI components and optimized user experience across devices

Weather Web App

JavaScript, REST API, Three.js

- Built a real-time weather application using external API integration
- Implemented asynchronous data fetching and dynamic UI updates
- Enhanced UI experience using Three.js visual elements

JavaScript Image Editing App

JavaScript, HTML, CSS

- Developed a browser-based image editing application using the HTML5 Canvas API
- Implemented image upload, filters, brightness adjustment, and export functionality
- Designed a responsive and interactive UI with real-time image previews
- Optimized client-side image processing for smoother performance

TECHNICAL SKILLS

Languages: C, C++, JavaScript, PHP, Node.js, HTML, CSS, SQL, MySQL

Frontend: React.js, Tailwind CSS, Redux Toolkit, Three.js, GSAP, Context API

Backend: PHP, Node.js, Laravel, REST APIs

Tools/Tech: Git, GitHub, VS Code, Vercel, Lenis, SFML

Core CS: Data Structures & Algorithms, OOP, Operating Systems, System Design, Database Design, CRUD Operations
