

Muhammad Rayyan

Full Stack Web Developer

+92-318-9524077 | rayyanmuhammad224@gmail.com | github.com/rax123u |

EDUCATION

University of Engineering And Technology, Peshawar
Bachelor of Science in Computer Systems Engineering

Pakistan
Expected Graduation: 2027

EXPERIENCE

Full Stack Web Developer (Self Projects)

Independent Development

2025 – Present

- Developed multiple full-stack and frontend applications using React.js, JavaScript, and modern UI libraries
- Built AI-powered dashboard systems with interactive analytics and responsive design
- Implemented routing, state management, and reusable component architecture
- Worked with REST APIs, asynchronous data handling, and dynamic UI rendering
- Focused on performance optimization and clean, scalable frontend structure

PROJECTS

AI Frontend Review Dashboard

React.js, Redux Toolkit, Tailwind CSS

- Built an AI-powered frontend analysis dashboard with real-time reports and analytics UI
- Implemented Redux Toolkit for efficient state management across components
- Designed responsive and reusable UI components using Tailwind CSS

E-Commerce Web Application

React.js, Redux Toolkit, JavaScript

- Developed a fully responsive e-commerce frontend with product listing and cart functionality
- Implemented global state management using Redux Toolkit
- Built modular UI components and optimized user experience across devices

Weather Web App

JavaScript, REST API, Three.js

- Built a real-time weather application using external API integration
- Implemented asynchronous data fetching and dynamic UI updates
- Enhanced UI experience using Three.js visual elements

Javascript Image Editing App

JavaScript, HTML, CSS

- Developed a browser-based image editing application using JavaScript and the HTML5 Canvas API
- Implemented features including image uploading, filters, brightness/contrast adjustment, and image export
- Designed a responsive and interactive user interface with real-time image preview capabilities
- Optimized client-side image processing for smooth performance and improved user experience
- Strengthened skills in DOM manipulation, event handling, and frontend development principles

TECHNICAL SKILLS

Languages: C, C++, JavaScript, HTML, CSS, SQL, MySQL, Node.js

Frontend: React.js, Tailwind CSS, Redux Toolkit

Tools/Tech: REST APIs, Git, GitHub, VS Code, Vercel, Three.js (basic)

Core CS: Data Structures & Algorithms, OOP, Operating Systems, System Design basics, Database Design, CRUD Operations
